PARTS & SERVICE DEPARTMENT NEWS

July 6, 2015

A Word About Matik's Parts & Service Team

"Matik wants to continue to help you "Move Forward" in your production demands, and has now assembled the finest technical support, spare parts and service department in its history! They are anxious to prove to you that they can help you fill your needs.

I'm sure you will agree it is a talented group. They are young, but experienced, determined, and truly want to make our customers successful. They are willing to go above and beyond to help any customer, if the customer gives them a try."

--David Siegel, Vice President of Parts, Service and Support

Let me introduce you to the Matik Parts and Service team.

Jody LeBlanc (Parts & service support, All Lines)

Who says you can't go home?

After working in the printing industry in Germany for 13 years, Jody returned to Matik, where her career began several years before. Jody is familiar with all of the product lines Matik represents, and is ready to either answer your questions directly, or steer you to the right person if necessary. Jody reads, writes and speaks German, an asset in our business. In addition, she has extensive experience in logistics, and can help you with all of your deliveries, be it machines, parts or consumables.

Jody can be reached at extension 133, or jleblanc@matik.com

Web and Sheet Cleaning Equipment

Why Web Cleaning?

Contamination of a moving web can be caused by the environment, the process itself or needed operations. Debris, such as...

"You don't need to become a web cleaning expert to benefit from the advantages of web cleaning.

Have your solution composed by the inventors of web cleaning!"

Varyflex V2 Offset by OMET

OMET presents the most innovative mid-web variable-size sleeve press for packaging printing ever.

Available in widths of 26in (670 mm) and 33in (850 mm).

Gianpaolo Panzeri (Technical support & service, printing & security)

Gianpaolo is an electro-mechanical technician from Lecco, Italy, who has extensive experience in the printing industry. Be it Codimag or Omet, Melzer or SEI Laser, Gianpaolo has factory training and field experience to address your production issues and concerns. Gianpaolo has PLC programming experience, and has B&R and Siemens training. He knows Italian, French and Spanish, and has the type of "outside the box" thinking that benefits our customers.

Gianpaolo can be reached at extension 147, or gpanzeri@matik.com

James Brazeau (Technical support & service, converting)

James joined Matik after serving his country in the military for 20 years. During that time, he faced a multitude of troubleshooting and repairing tasks, both electrical and mechanical in nature. James is factory trained on both Goebel-IMS and Olbrich equipment, and has worked on Senntech slitter rewinders as well. A fast learner with the drive to see your problems be resolved, he is the person to contact on any converting equipment issues.

James can be reached at extension 129, or jbrazeau@matik.com

Alex Balke (Technical support & service, foil stamping & security)

Alex is the latest hire by Matik, and we are excited to have him on board! Just arrived from Germany, he has over a decade of experience in the foil stamping and embossing industry. He knows not just the equipment (he is Gietz factory trained), but also foil and set up experience to help you improve production. Alex also has been factory-trained by Melzer on their security printing equipment. He is ready to answer your questions and share his experience with you!

Alex can be reached at extension 136, or abalke@matik.com
